

Dear Madam,

I, Gouri Deshpande, mother of Shrivatsa Deshpande, studying in senior 15th standard, wanted to share my feelings about teachers in these three years. I wanted to talk during our concert and even during PTM's, but me being very emotional cannot express in front of everyone. So writing a small Thanksgiving letter to you. Thanks is a very small word for what dedication, love and affection you have shown to our children.

Being a first time mother of a child and sending my child to this school, I was very excited, happy and also nervous as how my child will come out from this school. But your affection and love towards making children very comfortable, so that they are not afraid of school and it so has happened my child loves to go to school and do all the activities. Handling one or two children at home is very difficult for us, but you manage so many children with different tantrums daily, keeping them busy with fun activities, teaching them kindness, discipline, sharing, caring, helping each other along with the academics. Also you identify their potentials and encourage them.

Learning basic skills is very important for children. once their base is strong, they can win any exam or anything in life. You have ^{done} that, with practical examples which is beyond our thinking. You organize various activities for children, Parents, grandparents which stands apart from other schools. We Parents are so much attached with all the teachers that we don't want to leave this school and go to the next level. Time and again, we have been told how you teach them, how children give answers in a very happy manner.

A big hats off to you madam for making these beautiful sculptures of our children. We will miss you alot. I still have a chance to meet you, for my younger one, which I will be eagerly waiting for. I always remember you smiling, which makes me feel very happy.

So, please, "Always Keep Smiling".

Thank you
